Aegis Risk is a specialty consultant and broker focused on medical stop loss, health reinsurance and related risk management strategies. We seek solutions for large employer benefit plans and other risk-bearing health entities. We partner directly with employers and providers, as well as other brokers and consultants.

Our Value:

Our in-depth knowledge of catastrophic medical claimants and their coverage solutions exceeds that of most benefits advisors—who only cover it occasionally. We obtain the greatest value in protection from this unique risk, while your primary broker or consultant remains focused on the rest.

Our Services:

Core services include stop loss plan design, as well as carrier marketing and selection. Our expertise and relationships provide highly competitive renewal quotes, including top-rated carrier options not available to other benefits consultants and brokers.

Upon placement of stop loss, we provide ongoing claims monitoring and reimbursement filing—providing peace of mind in using a carrier external to your claims administrator or health plan.

For larger organizations with multiple divisions and/or profit centers, we can structure an internal risk pool paired with a higher, less costly stop loss deductible—further lowering your total expense.

Our historical perspective as health care benefit consultants uniquely prepares us as relevant advisors to ACOs and other emerging risk-bearing entities as they consider the potential shift of catastrophic claimants to their liability.

Learn More:

Contact us today to discuss our approach, including a complimentary, no-commitment review of your coverage. We partner with employers as well as other brokers and consultants.

Attigo® by Ascendium is a suite of student loan repayment support solutions. When included in an employee benefit package, they make recruitment and retention easier and engagement and productivity better. Our offering includes:

- Student Loan Repayment Assistance—a platform to facilitate employer contributions
- 1:1 Student Loan Counseling—personalized guidance from a trustworthy source
- Financial Education Website—videos and tools to support money management and higher-ed achievement.

In this competitive job market, employees are looking for companies willing to help improve their quality of life both in and out of the workplace. With inflation rising and the return to student loan repayment looming, one of the most common factors affecting today's workforce is financial stress. Help your employees navigate the road ahead. For over 50 years, we've simplified the complex and provided expert student loan insight and counseling to help millions of people achieve repayment success.

Health plan administrators struggle to manage the moving parts of the benefit plan. We help administrators organize their data, vendors, and business processes into one, privately branded portal.

With their portal, administrators organize the different pieces of the health plan in one place and securely communicate with plan participants 24/7 from any device. This empowers administrators to boost their efficiencies and drive health plan engagement.

For over 20 years, health trusts, third-party administrators, health plans and employers worldwide have organized their benefit plan administration online through their partnership with Health Portal Solutions.

Employers want solutions to retain parents in their workforce, and employees need support as they return to work after welcoming a new baby. From family and friends, to community and coworkers, many find their "kin" in all kinds of places. That's why Medela and Mamava partnered to create Kin, a customizable parental and lactation support benefit that brings best-in-class products, technology and resources specifically designed for new parents.

Parents shouldn't have to choose between returning to work and continuing to provide breast milk to their baby. With Kin by Medela, employers can support families' priorities and enable healthy returns for the working parents in their organization.

Company Overview

Worldwide, 970 million people are living with mental health issues. The biggest hurdle isn't treatment—It's access. Lyra's co-founder and CEO, David Ebersman, left his job as Meta's chief financial officer in 2014 to tackle the problem by making it easier to find and get treatment and using technology to make it smarter, more personalized and more effective.

Since then, more than 300 leading companies have partnered to offer Lyra's mental health benefits to their employees, including Meta, Pinterest and Starbucks, giving more than 13 million people access to life-changing care.

SecureSave provides a standalone Emergency Savings Account (ESA) built specifically to drive high employee participation while delivering measurable improvements to employee financial well-being. Our average employee participation rate is 60% due to our easy-to-use mobile and web app, payroll savings automation, employee encouragement, and employer “matching” and incentive programs. SecureSave helps employees avoid 401(k) loans and withdrawals, payday loans, second jobs, and credit card debt when faced with unexpected financial emergencies, which results in higher productivity and less on-the-job stress. The account is post-tax and not subject to ERISA, which means employees have easy access to their money—and it’s easy for HR to manage, too! SecureSave is the first financial wellness product demonstrating the ability to create ongoing employee savings behavior at a large scale.

Wysa provides anonymous mental health support on-demand. We believe access to support should be available whenever people need it. Stigma prevails, so we take away the need for people to ask for help and eliminate the need for people to make a judgement call on when they should seek professional support. Wysa’s clinically proven AI-first approach enables employees to improve their mental health before symptoms become severe and encourages them to take additional support when it’s needed by guiding them towards Wysa’s human coaching, your EAP or national crisis lines. Wysa has helped over six million people through 550 million AI conversations across 95 countries.
